

15 April 1975

NOTE FOR DD/I

Ed:

The Senate Select Committee Staff, specifically Mr. Bader, has asked to meet with you on Thursday, 24 April, at 2 p.m. They would appreciate an informal briefing on the development of the Intelligence Directorate, its organization, and its general conduct of business. They would also appreciate receiving from you a briefing on the product, its use, and any evaluation or consumer feedback arrangement you may have.

Further, based upon their discussions with the ICS, 15 April, they are most interested in your command relationships not only within the DDI but in support of the Director in his broader Community role and in NSC and 40 Committee matters.

All members who will be briefed have signed secrecy agreements and are cleared for COMINT, TKH, and [REDACTED] [REDACTED] will provide you the specific names as soon as we learn precisely who will attend and arrange to escort them to a place of your choosing. A member of this Staff will also be present for this briefing but we would appreciate your providing a memorandum of record of subjects covered, questions asked, and the like for the Central Indexing Registry [REDACTED]
